# BASICS

## SYMBOL KEY

Dice	Symbols
◆ Ability Dice	★ Success
◆ Difficulty Dice	▼ Failure
■ Boost Dice	☺ Advantage
■ Setback Dice	⚠ Threat
● Proficiency Dice	⚔ Triumph
● Challenge Dice	☹ Despair
○ Force Dice	○●● Force

## DIFFICULTY (EOTE. 17)

Difficulty Level	Dice	Scope
Simple	-	Basic and routine.
Easy	◆	Poses little challenge, but something could go wrong.
Average	◆◆	Success expected, but failure is not surprising.
Hard	◆◆◆	Professionals fail as often as they succeed.
Daunting	◆◆◆◆	Pushes Professionals to their limits.
Formidable	◆◆◆◆◆	High impossible.
Impossible	-	With GM permission, spend Story Point to tackle as Formidable.

## UPGRADING/DOWNGRADING DICE (EOTE. 21)

- **Increase:** Add ◆ or ◆.
- **Upgrade:** Convert ◆ to ● or ◆ to ●. If upgrading is impossible, increase instead.
- **Decrease:** Remove ◆ or ◆. If only ● or ● are left, ignore additional decreases.
- **Downgrade:** Convert ● to ◆ or ● to ◆. If only ◆ or ◆ are left, ignore additional downgrades.

## DESTINY POINTS (EOTE. 28)

There are 2 pools of Destiny Points. The players' and the GM's. The players can use their pool to do things, and the GM can use their pool do similar things. When a story point is used, it is moved to the other pool.

The points can be used to:

- Upgrade your own or an ally's roll.
- Downgrade an opponent's roll.
- Activate an ability you have.
- Do anything the GM will allow a Destiny Point to do.

## DICE POOL (EOTE. 18)

Assembling a dice pool has 4 steps::

1. **Base:** Collect ◆ equal to the characteristic.
2. **Upgrade:** Convert an amount of ◆ equal to your skill rank into ●.  
*Note: If your skill is higher than your characteristic, then use skill for the base and characteristic for the upgrade.*
3. **Difficulty** GM adds ◆ and ● depending on the base difficulty of the task.
4. **Modifiers:** GM, actions, maneuvers or special abilities add ■ and ■ depending on situation-specific changes to the difficulty of the task.

## INTERPRETING THE RESULT (EOTE. 23)

1. **Triumph and Despair:** A ⚔ symbol on the die counts as both a ★ and a ⚔. A ☹ symbol on the die counts as both a ▼ and a ☹.
2. **Cancel out:**
  - ☺ and ⚠ cancel each other out.
  - ★ and ▼ cancel each other out.
  - ⚔ and ☹ do **NOT** cancel each other out. The ★ and ▼ they generated do however count as regular ★ and ▼, and can be cancelled out normally.
3. If the roll generated more ★ than ▼, you succeed. If it generated the same amount or more ▼, you fail.
4. **Spend** ☺, ⚔, ⚠ and ☹: In combat, you spend the ☺ and ⚔ and the GM spends the ⚠ and ☹. Out of combat, the GM spends it all.

## RANGE BANDS (EOTE. 208)

Engaged – Short – Medium – – Long – – Extreme

The lines symbolize how many "Move" maneuvers it takes to move between the bands.

# COMBAT

## INITIATIVE (EOTE. 199)

Initiative is decided in the beginning of combat with a simple (-) **Cool** or **Vigilance** check. **Cool** when the characters are ready for combat, **Vigilance** when they are not.

## MANEUVERS (EOTE. 200)

Max 2 maneuvers per turn. First is free, the second either costs 2 strain, is exchanged for an action, or by spending  from a combat check.

- **Aim (steady aim):** Add  to next attack. If you spend two consecutive maneuvers aiming, it's  .
- **Aim (aim for limb/item):** Hobble or disarm on hit. Add   to attack. If 2 consecutive maneuvers, .
- **Assist:** Add  to ally's check.
- **Guarded stance:** +1 melee defense, add  to own attacks.
- **Interact** with environment or gear. This includes drawing your weapon.
- **Mount** or dismount.
- **Move:** Move between range bands according to the guide on the previous page.
- **Drop prone or stand from prone.**
- **Preparation:** Sometimes required by talent or ability.

## ACTIONS (EOTE. 203)

You can spend your action to do a maneuver, activate an ability, perform a skill check, or perform a combat check.

**Combat checks** are much like regular skill checks. You assemble a dice pool based on the appropriate skill and roll it against a set difficulty.  can also be added based on the target's defense. If it succeeds, you hit your target.

The attack does an amount of damage equal to the damage characteristic of the weapon plus 1 for every uncancelled . Damage dealt is reduced by the target's **soak**.

## WOUNDS AND STRAIN (EOTE. 215)

Wounds are physical damage to your PC. If your wounds exceed your wound threshold, you are incapacitated and gain a critical injury.

Strain is psychological damage to your character. If you strain exceeds your strain threshold, you are incapacitated.

## CRITICAL INJURIES (EOTE. 216)

Critical injuries are serious and sometimes permanent injuries sustained by your character. They can be gained when an enemy uses advantage gained from a combat roll to give you one, or if your character exceeds their wound threshold. When you gain a critical injury, roll 1d100 plus 10 times the amount of critical injuries you already have on the critical injuries table

## ATTACK DIFFICULTIES (EOTE. 205)

RANGE	DIFFICULTY
Melee	 
Engaged (light)	 
Engaged (heavy)	  
Engaged (gunnery)	Not possible
Short	
Medium

## SPENDING ADVANTAGE AND TRIUMPHS (EOTE. 206)

 	Destroy a piece of equipment the target is using.

# THE FORCE

## FORCE POWERS (FAD. 280)

Force powers take an action. They work in one of two ways:

- Make a force power check by rolling a number of , often equal to your force rating. For most characters, only  generate . You may, however, generate  using one or more , by using a destiny point for each  used. You also take strain and conflict equal to the number of  used.
- Commit a number of force dice. You cannot commit more than your force rating, and for the time those are committed, your force rating counts as that many less.

## FORCE TALENTS (FAD. 282)

While specializations from force-sensitive classes can be obtained by non-force-sensitive characters, force talents cannot be bought unless you have a force rating of at least 1.

## CONFLICT (FAD. 51)

You gain conflict by using  to generate  or when the DM feels like you've done something that goes against the light side of the force.

At the end of each session, roll 1d10 and subtract your conflict. Add that value to your morality. A roll of below your conflict will generate a negative result, which means your morality falls. Your morality cannot go lower than 0 or higher than 100. Your conflict then resets.

## DARK SIDE CHARACTERS (FAD. 52)

If your morality drops below 30, you become a dark side force user. You now generate  with  instead of . Take conflict when using . It also now costs strain and destiny points to generate  with , as it does with the reverse for light side force users. Dark side force users PC's also use up 1 destiny point from the pool at the beginning of each session.

At fewer than 20 morality, your strain threshold decreases by 1 and your wound threshold increases by one. At fewer than 10 morality, they once again decrease and increase by 1.

## LIGHT SIDE PARAGON CHARACTERS (FAD. 53)

At higher than 70 morality, you become a light side paragon. You generate 1 additional destiny point at the beginning of each session.

At more than 80 morality, your strain threshold increases by 1. At more than 90, it increases by 1 again.

# RECOVERY AND HEALING

## NATURAL REST

Regain 1 wound after a full night's rest.

After a week of rest, may attempt to recover from a critical injury with a resilience roll with difficulty equal to the injury's severity. On a success, you recover. May use  with a success to recover an additional critical injury.

## MEDICAL ATTENTION

May receive 1 medical check per encounter. Difficulty of check is  if wounds is at half or less of wound threshold,   if wounds at more than half wound threshold, and   if wounds exceed wound threshold. On a success, heal a number of wounds equal to uncancelled , and strain equal to uncancelled .

Instead of healing wounds and strain, a medicine check may attempt to heal a critical injury. Difficulty equal to severity of critical injury.

Doing a medicine check without equipment increases the difficulty by one. Doing a medicine check on yourself increases the difficulty by 2.

## STIMPACKS

The first stimpack of each day heals 5 wounds. The second, 4 wounds, etc. It costs a maneuver to inject a stimpack.

## RECOVERING FROM STRAIN

After each encounter, make a simple (-) discipline or cool check. You heal strain for each uncancelled  you get.

# CHARACTER CREATION

## STEP 1: SPECIES

Select a species (list found on 9). Note your starting characteristics, wound and strain thresholds, starting experience, and special ability. You can read about the species in the book and page specified under the species name.

## STEP 2: CAREER AND SPECIALIZATION

Choose one of the careers on page 32. You can read about the careers and specializations in the book and page specified at the bottom of each talent tree. You gain one rank in four of the career skills given to you by your career. If your chosen career has a star next to it on the list, you only gain a rank in 3 of the career skills, but you also gain a force rating of 1. At this point, you may also spend 30 xp to increase your force rating from 1 to 2.

Then choose a specialization, either from your chosen career, or from the list of universal specializations. You gain one level in 2 of the career skills you get from your specialization. If your chosen specialization has a star next to it on the list, you only gain a rank in 1 of the career skills, but you also gain a force rating of 1. **You do not gain a force rating of 2 if you chose both a career and a specialization that give you a force rating of 1.**

Note all your career skills on your character sheet.

## STEP 3: OBLIGATION

You start with some sort of obligation. Roll on the table (EotE. 39), or chose one of the options to determine your obligation. Your obligation score starts at 10, but you can gain benefits by increasing it using one or multiple of the following options:

- 5 additional experience points for +5 obligation
- 10 additional experience points for +10 obligation
- 1.000 additional credits for +5 obligation
- 2.500 additional credits for +10 obligation

You may only choose each option once, for a total of 30 added to your obligation score.

The higher your obligation score is, the higher the chance for it to become relevant.

## STEP 4: MORALITY

If you have a force rating of at least 1, you have a morality. Roll or chose on the table (FaD. 50). Your starting morality score is 50.

**Every character, including those without a force rating,** chose one of the following options:

- +10 starting experience
- +2.500 starting credits
- +5 starting experience and +1.000 starting credits
- Plus or minus 29 to your morality score (Only relevant for force sensitive characters). See page 5 for why you would want this.

## STEP 5: SPEND EXPERIENCE POINTS

You gain an additional 150 experience, which you may not use to increase characteristic.

There are several options for you to spend your starting experience:

### INCREASE CHARACTERISTICS

You can increase your characteristics, one level at a time. This costs of this is ten times the value it is being raised to. So raising a characteristic from 3 to 4 would cost 40, and raising it from 3 to 5 would cost  $40+50=90$ . You can increase your characteristics no higher than 5.

### SKILL TRAINING

You can use your starting experience to raise your skill ranks, one rank at a time. It costs 5 times the rank it is being increased to. So raising a skill from 1 to 2 would cost 10 xp. Non-career skills cost 5 more experience points to raise a rank. You cannot raise a skill above rank 3.

### PURCHASE TALENTS

You can buy talents from your specialization talent tree. The cost of each talent is noted on the tree. You may purchase any talent from the top row of the tree, or any talent connected to one you have. Ranked talents can be taken multiple times, which increases the rank. Non-ranked talents can only be taken once.

### PURCHASE SPECIALIZATION

You can buy new specializations. It costs 10 times the number of specializations you have, including the new one. Specialization belonging to a career that is not yours costs an additional 10 experience points (Universal specializations don't cost extra).

### PURCHASE FORCE POWERS

If you have a force rating of at least 1, you can purchase force powers. The cost is written on the power. You must purchase the basic power first, and then you can purchase upgrade connected to ones you own on the tree. You must meet the prerequisite before buying the basic power.

## STEP 6: CALCULATE DERIVED ATTRIBUTES

Your wound and strain thresholds can be calculated now, based on your species. Your base soak is equal to your Brawn.

## STEP 7: MOTIVATION

Roll for or chose a motivation (EoTE. 94, FaD. 105).

## STEP 8: BUY GEAR

You start the game with 2.000 credits, which you can spend on gear. If you wish to purchase a lightsaber, check page 7.

# GEAR

## ENCUMBRANCE

Your encumbrance threshold is 5+Brawn. If the encumbrance values of everything you are carrying add up to more than your threshold, you add ■ to all Agility and Brawn checks. If you exceed your threshold by more than your brawn, you no longer get a free maneuver each turn.

## ITEM QUALITIES
